

Participate with other groups in the development of a Coal Mining Heritage Trail in Ipswich.

This trail is seen initially as the preservation of a number of coal sites around the city and then linking them up by a heritage booklet.

Each site would need: -

- Signage with photos
- Parking &/or bus stop
- Walking paths
- Protective and safety fences

Sites could include: -

- Blackstone Hill area & West Moreton shaft with winder (Jessie Brown).
- Historical Museum
- Working sites to view from the road at Rosewood etc.
